MarketMaster®

Please note that you will need to register for MarketMaster®

Reference in this document to 'Qualifying Account' means Additions and Additions Plus accounts.

All of this would normally cost £12 per quarter (unless you deal in that quarter), in administration fees but with a Qualifying Account you get it at no extra charge!

As a Qualifying Account holder, you can register for a MarketMaster® account from Barclays Stockbrokers, the UK's No. 1 stockbroker.

With Barclays Stockbrokers, you have access to a wide range of products including equities, funds, corporate bonds and gilts, Exchange Traded Funds, Exchange Traded Commodities, structured products and investment trusts.

- Online trade costs vary, and are dependent upon the number of deals per calendar month.
- You can also hold your investments alongside your MarketMaster® in an Investment ISA or PensionMaster (SIPP) account.
- Link other accounts to your MarketMaster® and increase your trade count so you reach lower dealing rates faster. This includes your spouse, other family members or other trading accounts such as our Investment ISA registered at your address.
- Online access to your accounts night and day.
- Access to exclusive research and investment content through our Research Centre giving you up-to-date market news, technical analysis and stock recommendations alongside exclusive Barclays Wealth research.
- Barclays Stockbrokers Price Improver® – we will find you the best price available to us when you deal.
- A range of flexible dealing options to suit your trading needs including 'limits', 'at best', 'stop' and 'trailing stop' orders to help you manage your investment portfolio even when you cannot actively monitor the market.

The price and value of investments and their income fluctuates; you may get back less than the amount you invested. Remember that how an investment performed in the past is not necessarily a guide to how it will perform in the future. The investments and/or investment services referred to (in this brochure) may not be suitable for all investors. If you need advice, you should consult with your financial adviser.
