

“THE ENTERPRISE FINANCE GUARANTEE LOAN FROM BARCLAYS COMMERCIAL BANK WILL PROVIDE VALUABLE SUPPORT TO OXFORD BIOTHERAPEUTICS AND ALLOW THE BUSINESS TO CONTINUE TO GROW, DESPITE THE CURRENT ECONOMIC CHALLENGES.”

CHRISTIAN ROHLFF, CEO, OXFORD BIOTHERAPEUTICS.

Oxford BioTherapeutics focusses on the development of innovative and cost-effective medicines to fulfil major unmet patient needs in the field of cancer. As a privately held company, they have been banking with Barclays Commercial Bank since their formation in 2004.

They recently asked us for more support and help to grow their business, however they didn't have enough security for normal borrowing. But through our knowledge of their business and the opportunities available, and by acting quickly, we were able to provide £400k of funds under the new Government-sponsored Enterprise Finance Guarantee scheme.

This scheme offers businesses access to the working capital and investment finance they might not otherwise be able to get, with a choice of interest rate structures and flexible repayment terms. The loan we arranged for Oxford BioTherapeutics was one of the first granted in the country under this scheme.

*“WE CAN HELP OXFORD BIOTHERAPEUTICS
MOVE THEIR BUSINESS FORWARD.”*

“I am really pleased to offer funding under this new initiative, which means we can help Oxford BioTherapeutics move their business forward.”

*ANDREW DAVIES, RELATIONSHIP DIRECTOR,
BARCLAYS COMMERCIAL BANK.*
