A return on surplus funds

You can take advantage of the rates of return by transferring surplus funds from your Euro Account.

As interest accumulates on a daily basis, you can gain from transferring surplus funds into this account, even when these are available for short periods only.

Interest rates are payable on whole balances but are subject to minimum balances. Please see the product terms and conditions for details of interest rates.

Less administration, more convenience

The account simplifies administration and saves you time. Moving surplus cleared funds in order to maximise returns is easy because you can transfer any amount through your Barclays Euro Account.

You can complete account transfers using online banking, telephone or by visiting your local branch.

Next steps

To open this account, you will need to hold both a Sterling Current Account and a Euro Account. To apply for a Euro Business Premium Account please contact your Business Manager, or speak with the Telephone Banking help desk if you are registered for this service.
