

Euro Account

A business current account denominated in Euros which helps to mitigate your exposure to exchange rates and simplifies payments.

Key features

- Increased control of funds and payment flexibility for Euros
- Helps to reduce exchange rate risk
- No minimum or maximum balance restrictions
- Cheque book available on request

If your business pays or receives money in Euros, this account enables you to manage these transactions effectively and efficiently. No minimum balance is required to open an account.

The Currency Account enables you to collect and make payments in other freely traded currencies. Please refer to the Currency Account fact sheet for more information. www.barclays.co.uk/content/dam/documents/business/manage-your-business/BAR_9971004_cropped.pdf

Easy access

You can complete account transfers and international payments, or view transactions and account balances through online and telephone banking, or by visiting your local branch.

If you need to move funds rapidly, a comprehensive range of international payments and transfers are available to send your money quickly and safely to its destination.

Alternatively, a cheque book makes currency payments easy too. We would, however, advise you to consult the payee in advance to ensure that payment by cheque is acceptable.

Reduced exchange rate risk and administration

Exchange rate risk and administration can be reduced by using this account to match incoming and outgoing Euro funds. Income does not have to be converted into sterling, nor is it necessary to buy the currency required when purchasing goods or services from overseas.

Flexible

Electronic credits, cheques and drafts will be accepted in any freely traded currency and converted as necessary.
