

## How to pay someone new in Online Banking

Barclays Online Banking is a secure way to access your accounts 24 hours a day.

With Online Banking, you can

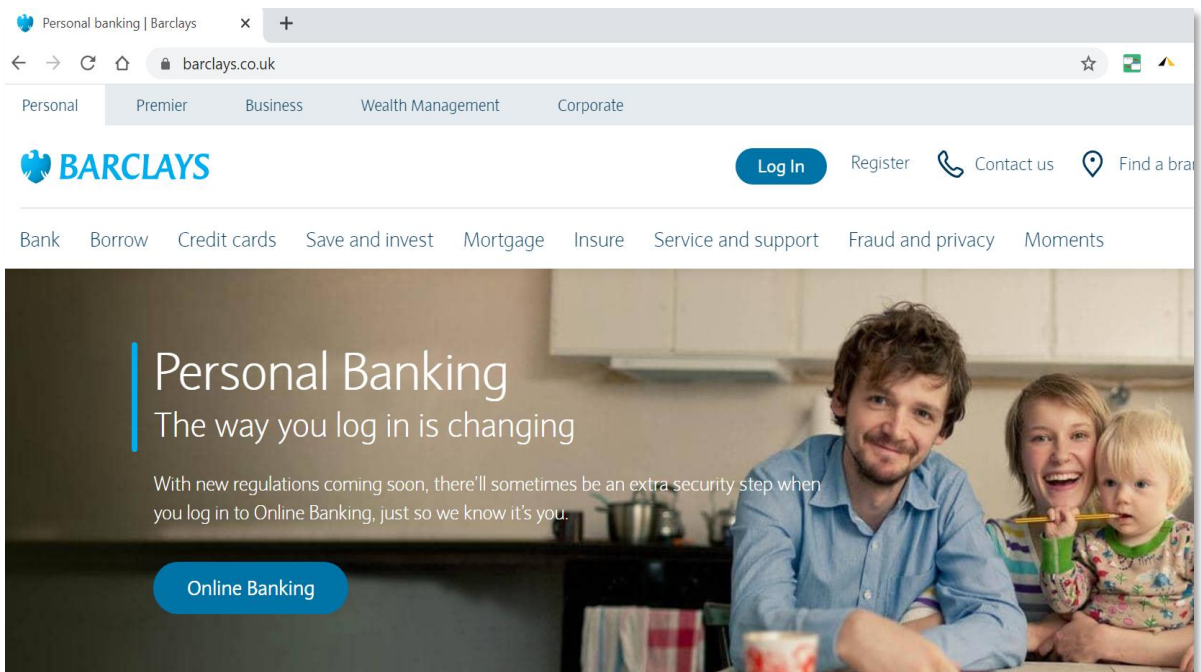

- Check balances, transfer money and pay bills
- View and download statements
- Manage Direct Debits and standing orders
- View your debit card PIN
- Report a lost or stolen card

Here's how to manage your money by paying someone new using an online payment.

### Step 1

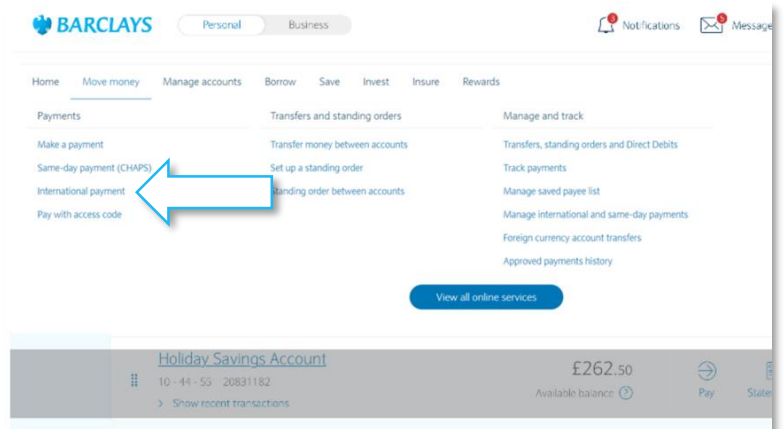

Open [barclays.co.uk](https://barclays.co.uk) in your web browser, click 'Log in' at the top of the page and then log in to Online Banking using PINsentry.

To protect your account, you won't be able to make an international payment if you log in using only your passcode and memorable word – though you will be asked if you want to upgrade to PINsentry if you do.

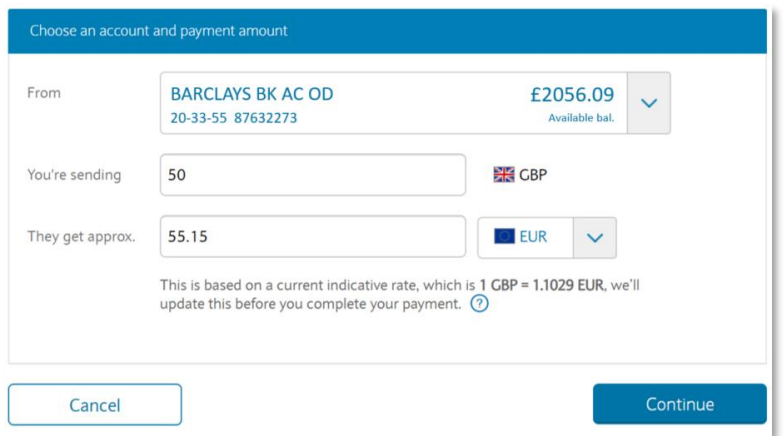

## Step 2

Once you're logged in, select 'International payment' from the 'Move money' menu.

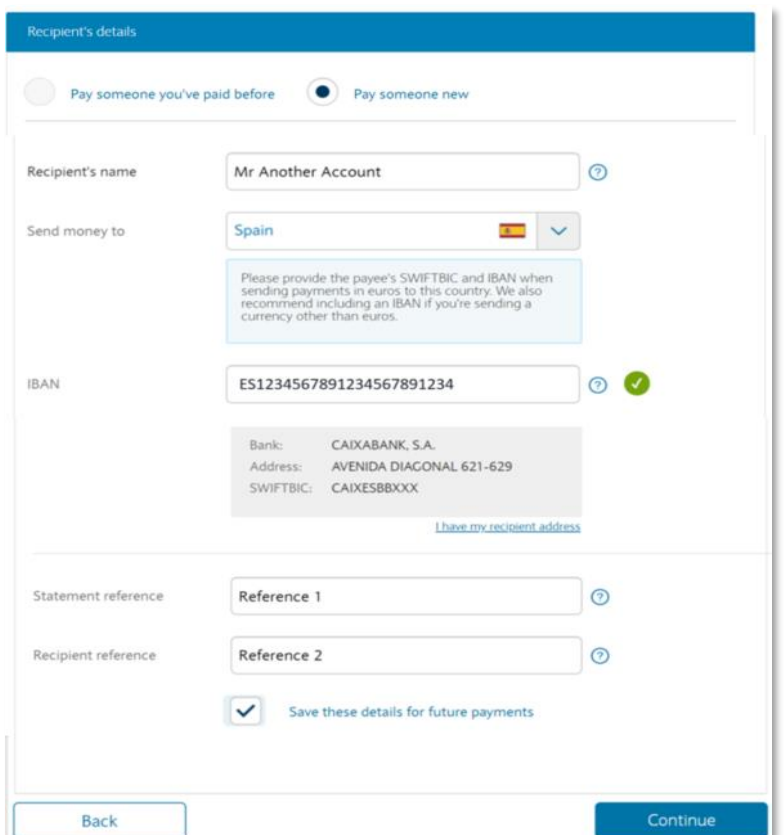

## Step 3

When the 'International payment' page opens, select the type of account you want to make the payment from (you may only have one account) and type in the amount you want to pay. We'll give you an idea of how much this is in the destination currency – you can choose this from the drop-down list alongside the converted amount.

## Step 4

Click 'Continue' when you're ready and then choose to pay either an existing payee or someone new (you'll need to use PINsentry again to create a new payee).

## Step 5

Choose how quickly you'd like the payment to be made. There may be a charge for a priority payment – we'll show what this will be when you select this option. You can also choose which account to use to pay any additional charge.
